30     One of my favourite quotes is by Confucian:
31   <blockquote>
32     When three are walking together, I am sure to find teachers among them. I will select their good qualities and
33     follow them, their bad qualities and avoid them.
34   </blockquote>
35   I like the quote because it reminds me to always try to learn new things from my surroundings.
